## POOL BLOCKS 1.5/0.6kg ALL SEASONS ALGICIDE

# POOL BLOCKS®

The Original Since 1978

### PRODUCT INFORMATION

**Pool Blocks All Seasons Algicide** is an extra strength, slow release solid tablet algicide suitable for summer and winter. They are an excellent Blackspot killer and long life algicidal treatment. The combination of both copper ions and chlorine is always better than just chlorine alone.

- Eliminates all Blackspot, Mustard and Green Algae in swimming pools from walls, grouting and steps.
- Handy monthly tablet containing no harmful chemicals.
- Saves money by reducing chlorine consumption and salt water chlorinator running times.
- A long life algicide that stays dissolved for months to protect pool surfaces, making pool care simple.
- Winteriser for the non swimming months to kill algae without any chlorine present.
- Strongly chelated copper algicide that out performs other algicidal products.
- Pool water will not suddenly turn green when chlorine levels fall.
- Resistant to pool chemicals and fluctuating pH levels.

### SUITABLE FOR

- Heated, fresh or salt water chlorinated pools.
- Ozone and UV systems.
- Concrete, pebblecrete, vinyl liner and fibreglass pools.

### ACTIVE CONSTITUENTS

- Food grade non actives.
- Strongly complexed ionic copper at 64g/kg present as copper sulphate.
- Contains no chlorine or caustic agents.

### GOVERNMENT APPROVALS

- Australian Pesticides and Veterinary Medicines Authority (APVMA) for use in all Australian States and Territories, Approval Nos. 40224/03.
- Canadian PMRA Approval Reg. No. 25693 P.C.P. Act.

### DOSAGE

- 2 x Pool Blocks initially with 1 x Pool Block each month thereafter (50,000 litre pool).
- The Dose rate is less than 1mg/L which is below the world and Australian standard for drinking water.

### PACKAGING

- 1.5kg (5 x Blocks) value pack.
- 0.6kg (2 x Blocks) economy container.
- 10 containers per carton.
- Each block weighs approximately 300grams and is blue in colour.
